E Thrive

STRENGTHEN YOUR DELIVERY OF CARE

One system, one user experience, one patient record that spans the complete continuum of care. Thrive leverages forward thinking EHR technology to fit the rhythm, flow and unique needs of community healthcare today and be ready for the challenges that come tomorrow.

Thrive is built to leverage a modern, web-based user interface (UI) allowing users to login anywhere, any place with an internet connection via a supported web browser.

Thrive Clinical Suite:

- Enhanced workflows at the point of care, across the care continuum that promote physician usability

- System efficiencies that allow providers and other clinicians to focus on the patient not administrative tasks and burdensome data entry

- Fully integrated applications designed to connect the hospital, emergency department, pharmacy, lab and clinic care settings

- One patient record connecting all patient interactions helps ensure a quality care experience

Results:

| Anesthesia block admission down from 30 minutes to 12 minutes | Turnover time in the OR down from 45 minutes to 15 minutes | Emergency Room: 75 manual charts to 6 Notes templates | Charting time reduced from 30 minutes to 5 minutes |

STRENGTHEN YOUR BUSINESS

Thrive will help you keep the back office running as smoothly as the rest of your hospital or other healthcare facility while bolstering your bottom line. A fully integrated financial suite with the necessary tools to ensure solid business operations. Plus, an end-to-end workforce management offering to effectively manage one of your most important assets – your people.

Thrive Financial Suite:

- Streamline business operations within a single hospital or multiple facilities

- Integration between disciplines including budgeting, accounts payable and general accounting to ensure data and reporting accuracy

- Standard and customized report options designed for the unique needs of community hospitals

3R Management (Recruitment, Retention and Retirement):

- Complete end-to end, hire to retire workforce management offering

- Comprehensive and integrated solution to effectively and efficiently manage all aspects of your employee workforce

- Seamless integration between core HR functions gives needed functionality without adding new or unnecessary procedures

BENEFIT FROM THE RIGHT RCM STRATEGY
