*Rural Expanded Access to OUD Care and Linkage Using Toxicologists for Telehealth-Initiated TreatMEnt*

Supported by G28RH46273 from HRSA

## ABOUT

For decades, the Georgia Poison Center has been a trusted ally to Georgia's clinicians in navigating toxicologic emergencies. Today, we're proud to extend that same level of expert support to the management of opioid use disorder, empowering you to deliver confident, informed care to these patients and help them achieve long-term recovery.

## GEORGIA POISON CENTER

Call GPC for assistance with:

- Acute opioid withdrawal management
- Initiation of Medication Assisted Therapy (Suboxone)
- Linkage to local Recovery Community Organizations for help with outpatient follow up

Expert Support:

- Four board-certified addiction medicine doctors staff the GPC that also practice clinically in the ED.

**Poison Control can help control opioid withdrawal**
